the city authorities and the railway company is involved the positive forfeiture of the company's franchise as well as the sum of \$100,000 posted by the railway company to guarantee the completion of the road by Jan. 1. The railway retused to cease train running, Commissioner of Public Works McGaun claiming that the company's structure was unsafe in its present alleged incomplete state.

ALLEN NOT A CANDIDATE.

Said Bryan Would Undoubtedly Be Fusion Candidate.

Washington, Jan. 3.—Senator Allen of Nebraska, in an interview, authorized an absolute denial of reports that he would be the candidate for the presidency of a part of the fusion forces. He

said: "I would not accept the nomination If it were unanimously tendered me. Mr. Bryan will undoubtedly be the candidate of the Democrats, Populists and Free Silver parties for the presidency. Nebraska will give him a united, active delegation to all three of the conven-

tions.

Killed by Cars. LEWISTOWN, Pa., Jan. 3.-S. B. Bubb, nged 21 years, a clerk employed by the Pennsylvania railroad, was struck by a draft of cars and instantly killed. He leaves a wife and child.

SYMPATHY FOR BOERS.

▲ Besolution Introduced In Ohio House. Some Points of Bushnell's Message.

COLUMBUS, Jan. 3.—Representative Brumbach of Darke county introduced a resolution expressing sympathy for the resolution went over under the rules. Governor Bushnell, in his message to

the legislature, among other things said: Ohio has suffered much from the loss of rapital which has found a home in states offerlag special inducements. Our present laws relating to the taxation of certain corporations are good, and there does not seem to be further need of measures which may be con-

sidered as in any way prohibitory on the fur-ther business life of the organizations of capital which are constantly and sincerely obeying the statutes. The almost unparelled prosperity which reigned last year and the fine prospect for a

bring before the minds of those who act for the people the desire to do their proper part in the work of adding to the general welfare. While it is believed that the laboring classes have had a more comfortable and satisfactory life during the recent past than for many years, there is yet necessity for assisting them in many ways. Every safeguard that the law, and Hays failed to respond to their can throw around them should be given, pro-, names; otherwise the vote was unanivided such measures are equitable and just to all concerned. The requirements in regard to the sanitary condition of places of labor have proven beneficent to all, the good effect being as marked for the conscientious employer as for the employe.

It should be the aim and hope of those who are charged with the responsibility of pro-tecting the laboring masses to make their environment the best possible, so that in this grand country there shall be small oppor-tunity for criticism of the circumstances which surround the toilers. It is gratifying to me to be able to communicate the fact that during the recent past, with one notable exception, there has been no trouble between capital and labor. The differences that have arisen have in nearly every instance been settled ami-cably. For this good result the common sense of all parties concerned, the work of the state board of arbitration and the timely action of the department of workshow and factory inspection are to be recegnized as mainly responsible. All interests should acknowledge the efficient and able work of the state board af arbitration. I consider the board invaluable and one which should be sustained royally and earnestly at all times.

The experience of each year demonstrates to the people the importance of the primary election, and I believe there is now a strong demand for some legislation which will afford a process that can be commended in the light of modern methods. I, therefore, suggest that close attention be given to any proposition which will have the aim of providing a proper primary election law.

TO AMEND ANTI-TRUST LAW.

BLACKBURN NAMED.

MASSILLON, OHIO, THURSDAY JANUARY 4, 1900.

Again Selected by Kentucky Democrats For Senator.

Boers in their war with England. The THE CHOICE ALMOST UNANIMOUS.

Whallen Accused by Harold of Offering Him a Bribe, Gave Bond For \$10,000. Taylor, In Message, Advocated Repeal of Goebel Law.

FRANKFORT, Ky., Jan. 3.—After four years of retirement, former Senator Joseph Clay States Blackburn was chosen by the joint caucus of the Democratic continuation of the era of good times should | members of the legislature as the successor of Senator William Lindsay in the United States senate.

Senator Thomas asked that the roll be called so that every Democratic member might have an opportunity to go on record for Blackburn. Senators Alexander and Hays failed to respond to their

John H. Whalten, who is accused by Senator S. S. Harrold of having attempted to bribe him by offering him \$4,500 to vote against Goebel in the gubernatorial contest, arrived here and gave bond in the sum af \$10,000.

Both branches of the legislature organized by electing the nominees of the

Democratic cancus.

Governor W. S. Taylor submitted a message of over 7.000 words, covering state affairs and presenting elaborate reasons for the repeal of the Goebel election law, which he called the "infamy of 1898, that had demoralized, disturbed and disgraced the state,"

CORNISH IRRITATED.

Weeks Pried Into His Private Life-Apparently Damaging Admissions Secured From Him.

New York, Jan. 3.—Harry Cornish was again on the stand in the trial of Roland B. Molineux for the poisoning of Mrs. Adams. The defense cross-examined Cornish severely, Lara apparently with a view to discrediting his general character than to choke him in his previously delivered testimony. Cormsh was irritated by the examination, which pried into many chapters of his past life. Finally, in response to a question as to his relations with a certain woman, he answered testily: "You

He was asked as to the route that he took going from Yocum's office up town Mr. Russell's bill supplements the on Dec. 23. This line of questioning office and that he had thus been given edge discrepancies conce ning the time of the receipt of the bromo seitzer, also errors in his statements to the newspapers as to the manner in which he was dressed at the Adams apartments on the morning of the murder.

Cornish also acknowledged that at one time he thought Felix J. Gailagher wrote the Harpster letters. When interrogated regarding certain statements given out to the reporters, Cormsh said that he had searched for manifold copies and notes at the club house, but that they had been stolen. He demed making an appointment with a representative of the New York Journal and offering to sell for \$1,000 a story as to who sent the poison, but he acknowledged a meeting for the purpose of ascertaining who first gave Molineux's name to The Journal.

Mr. Weeks succeeded in getting the witness to acknowledge that in 1897 he wore a white Alpine hat with a black band, but he denied wearing a hat of this character during 1898. A person Whether the report will be unanimous wearing a hat of this description is known to have rented private letter boxes and received letters which have figured in this case. Cornish testified that the connection between the poison package address and the handwriting of Molineux was first mentioned by John D. Adams.

HANNAN WAS REMANDED. He Failed to Escape Custody at San

Francisco. San Francisco, Jan. 3.-J. H. Hannan, charged with murder in Pennsylvania, was remanded to the custody of the police by Judge Cook. He sought to escape from custody upon a writ of upon which he was arrested as illegal and void, in that it was issued on the information and beinet of a local police

Judge Cook refused to take this view of the situation. Two officers have They are in daily expectation of extradition papers for the prisoner, and intend, as soon as they arrive, to hurry Hannan back to Pittsburg.

Contributions to Lawton Fund. WASHINGTON, Jan. 3.—Secretary Wil-

son of the agricultural department walked into Ad utant General Corbin's office at the war department and handed him \$100 in gold for the Lawton fund remarking that "it was a farmer's contribution to a soldier's widow." Other contribution to the fund received by General Corbin was a check for \$1,000 from Mr. J. Pierpont Morgan of New York.

Abolished Slavery In Guam.

MANILA, Jan. 3.—A naval officer who arrived here from Guam brought a proclamation issued by Captain Leary, naval governor of that island, decreeing the absolute prohibition and total abolition of slavery or peonage, the order taking effect Feb. 22.

Denied by flugo schumacher, AKRON, O., Jan. 3.-Hugo Schu-

company, Uniontown, capital \$150,000. macher, one of Ferdinand Schumacher's assignees, demed the report from Chicago that Ferdinand and F. A. Schumacher were organizing a big company to fight the oatmeal trust.

The fire, which was one of the fiercest that the firemen have had to fight in a tenement house for some time, is be heved to have started from a Christmas tree on the first floor. There were some heroic rescues and narrow escapes from

SANTIAGO HEROES AGREED.

Ship Commanders Agreed to Long's Plan of Reward at the White House Conference.

Washington, Jan. 3.—The president agun took up the question of rewarding the naval officers who participated in the destruction of Cervera's fleet off Santiago and his final conclusions will be embodied shortly in recommendations to congress.

The president and Secretary Long had a consultation with eight of the Santiago captains at the Wnite House. The naval officers present were Chadwick of the New York, Cook of the Brooklyn, Clark of the Oregon, Philip (now rear admiral) of the Texas, Evans of the Iowa, Higginson (now rear admiral) of the Massachusetts, Folger of the New Orleans and Lieutenant Com-

mander Wainwright of the Gloucester The concensus of opinion of the naval officers as developed at the conference seemed to favor the method of reward recommended by Secretary Long-the conterring of medals which would carry with them a percentage of increase of pay in heu of advancement by numbers. This would compensate for actual promotion, both by giving increased pay and by giving to the recipients distinction which would mark them for future service.

At the same time in some cases it would work hardship, as for instance in the case of Captain Clark, who is two numbers below his position at the opening of the war. This is due to the advancement of the Manila captains whose promotions were confirmed by the senate. Captain Clark, at the conterence, however, was willing that See retary Long's plan should be adopted, in order that justice might be done to the others.

Shortage May Be Greater. LANCASTER, Pa., Jan. 3 .- Ex-County Treasurer Hershey's shortage, it was feared, will greatly exceed over \$65,000. the sum announced. It was discovered that he had tailed to credit at least one tax collector with \$65, and if he has tollowed this practice to any extent the detalcation will be much greater. Until experts go over the books the amount appropriated in this manner must be purely a matter of conjecture.

Gas Well on Fire.

Parkersburg, W. Va., Jan. 3.—The Big Painter gas well, belonging to the Mountain State Gas company of this city, located in Ritchie county, accidentally caught fire last night, and efforts to extinguish the flames were futile. Milnons upon millions of feet 'f gas were going to waste and the finan cial loss will be enormous.

Identified Son's Dead Body.

HARRISBURG, Jan. 3.-William F. Condran, a fireman on the Penusylvania railroad, was killed near Steelton while flagging a train. Shortly after his body was tound his father, who is also a fireman, came along on a local train. He almost fainted when he identified it as his son and his grief was so great that he was prostrated.

Public Debt Statement Issued.

WASHINGTON, Jan. 3.—The monthly statement of the public debt showed that at the close of business Dec. 30. 1899, the debt, less cash in the treasury, amounted to \$1,134,300,007, a decrease for the month of \$5,791,824. This decrease is largely accounted for by the purchase of bonds during the month.

Accused Michigan Men Missing. Lansing, Mich., Jan. 3.-Neither ex-Quartermaster General White of Grand Rapids nor Adjutant General Marsh of Allegan can be found, and it is alleged they have left the state to escape arrest upon grand jury indictments in connection with the alleged crooked deal in the state military board.

Boston, Jan. 3.—Jacob C. Rogers, a prominent banker and for many years the representative of J. P. Morgan & Co. of New York, died suddenly at ins home here. Mr. Rogers was 72 years of

OTIS. cavairy. CHAPELLE AT MANILA.

The Arrival of the Papal Delegate Directed Attention to Certain Church Malters.

Manila, Jan 3,-Archbishop Chapelle, the papal delegate, arrived here on the United States transport Sherman. The arrival of the papal delegate directed attention to the question of church and the brotherhoods in the Philippines, including the matters of deciding the brotherhoods' claims to real estate and other property of the church receiving state support, and of the re-establishment of Spanish curates in native parishes. By the appointment of Monsignor Chapelle as arenbishop, Nozaleda's successor, the Filipinos and Spaniards telt that steps will be taken in these momentous matters which may

bring infinite good or evil to the islands. Inasmuch as the question of the expulsion of the brotherhoods from the islands and the freedom of the people from the alleged injustice of members of the orders has always been declared to be the principal cause of the revolt of the Filipinos against Spain's sovereignty, long time residents of the islands declared that if the friars were returned to their former parishes the natives, seeing them return under Amercan administration, will surely attack and kill them and otherwise cause dis-

Corroborated Story of Hardships. MANILA, Jan. 3 .- Colonel Pettit, com-

manding the Thirty-first infantry, and Lieutenant Colonel Hayes, who conmanded the three companies of that regiment on board the transport Mananeuse which arrived here Nov. 28 and reported terrible experiences at sea, filed official reports corroborating in every detail the exclusive story of The Associated Press describing the hardships of the soldiers. The colonel's report recommends a claim against the ship's owner for the uniforms of the quake destroyed ten villages in the whole battalion, which were ruined

ANNUAL TRADE REVIEW.

1899.

A year ago Massillon manufacturers predicted that 1899 would be the greatest year trade has ever seen. Their reports at its expiration prove that they did not overshoot the mark. There have been many increases in plants, working forces and wages, and at the present in every quarter a confidence that the future holds a continuance of the satisfactory conditions of the past twelve months. All this is in striking contrast with the reviews of a few year, almost doubled. ago. Then plants were idle, owners were discouraged and the unemployed were almost as numerous as the employed. In many cases, the latter received wages incomparably lower than those prevailing at present. During the year several new industries have been added to the city's list, notably the Massillon Iron and Steel Company, the Ohio Table Company and the Star Silicate Company. Reports from all, old and new, are hereafter given:

THE COAL COMPANIES.

RIDGWAY BURTON CO.

more than made up for the duliness of way. The demand for Massillon coal has not been quite in proportion to that for factory coal on account of Massillon being almost strictly a domestic coal, and the consumption being affected by the extremely mild winter. However, barring the loss of a few days on account of the lack of empty cars, we have run steadily our three mines in the Massillon district since September 1st, and at the mines on the C. T. & V. since August 1st. The Fox Lake Coal Co. abandoned Clover Hill, one of its mines in the Mas sillon district in 1899, but expect to open another one in 1900. The outlook for 1900 in the coal business is very good. the only cloud on the horizon being that a number of operators who sold their mines to the Pittsburg coal combination are investing the money derived from those sales in Ohio properties, which may increase production too

In the iron business 1899 has been extremely prosperous. The large demand for iron being shown by the fact that although enough furnaces have gone into blast since December 1, 1898, to make the weekly capacity of furnaces in blast December 1, 1899, 67,000 tons over the weekly capacity of those in blast Decem ber 1, 1898, yet there is no unsold stock on hand at furnaces. In fact, almost the entire pig iron production to July. 1900, is already sold. At the Penn Iron Bessemer pig, and will soon be able to make one-third more iron per day than at present.

WAINWRIGHT COAL COMPANY.

greater but for the difficulty experienced in getting railway cars. The company now operates eight mines, among them the Woodland and Eureka, of the Massillon district. The famous Camp Creek, which was recently aban-The company some time ago disposed of its Sherodsville mine. There has been demand. The future seems most promprices.

HOWELLS MINING COMPANY.

Altogether it was a better year than The business for the last three or four months has been particularly good. The trade was dull in the summer, and close upon this condition came the scarcity of cars, which was a great handicap during August and September. The company has but one mine in operation at present. The indications are for a good year.

WARWICK COAL COMPANY.

The Warwick mining interests have next year's business, which from pres-been steadily increasing in extent and ent indications will be very great. value, although the net results from the year's business have not been as large as former years, caused by the abandonment of old mines and the opening of new ones, resulting in a decreased ton-nage for the year. The closing up of old mines usually results in small profits, likewise the opening of new properties, which require time to be put on a profit able basis. However, the outlook for the coming year is considered good.

MASSILLON MINING COMPANY.

Our new mine on the Ralston farm, near West Brookfield, has been in operation but a few months. We have found a ready market for all the coal we could The plant and force have been increased produce. The outlook for the future is very bright.

CENTRAL COAL COMPANY.

It has been a fair year all around for us. Despite the scarcity of cars generwhat is now the Cleveland branch of the steady operation. The Central Compa-joutlook is satisfactory in every respect, jing the time of the year, is good. ny is but a little more than a year old, so that it has no past with which to compare present conditions.

POCOCK COAL COMPANY.

After a year whose business was greater than its predecessor, the most satisever before. Our Pocock No. 2 and Elm Run Nos. 3 and 4 are in steady operation. 15, and previous to that time we were not greatly hampered, as we have both W. from \$0 per gross ton, and at present & L. E., and C., L. & W. switches to stands at \$24.25 F. O. B. furnace. This two of our mines. NEWSPAPERARCHIVE®.

CRYSTAL SPRING COAL CO.

L. P. Schimke, of the company, says that all last year they had the coal, the miners and the orders, but they could not get railway cars. He thinks that inasmuch as the C., L & W. company has ordered 1,000 new cars, conditions will be better during the new year If beginning of the new year there is the cars materialize, the mine will be worked steadily to its full capacity.

MASSILLON STANDARD COAL COMPANY. The demand for coal has been great, just overtaken consumption, but now the outfit, over that of last year, having stand pretty evenly balanced. The price

THE RAILWAY COMPANIES.

THE WHEELING & LAKE ERIF.

The year 1899, to the recollection of Station Agent W. R. Hansen, has been the most prosperous in the local history of the W. & L. E railway. Figures show an increase of forty per cent in the freight traffic, while in the passenger service, each month is marked by an increase over the corresponding mouth of last year. The absorption of the C, C. &S is, in a measure, responsible for the amount of business transacted and credited to the Massillon station. Whereas, formerly, coal from along the W & L. E, billed to Cleveland, had to be The year 1899 should be considered a transferred to a foreign line, necessitatprosperous one in the coal business, for ing a division of the profit, the same the activity of the last five months has coal is now transferred to the Cleveland division, at Navarre, and the profit bethe early part of the year. The demand longs to the W. & L. E. A special crew for coal is astonishing, and is especially has been assigned during December for

business over that of the one previous Freight traffic has increased about 40 year. per cent, passenger traffic 35 per cent... making the best year in the history of the company. During the latter part of the year we were compelled to place orders for 1 000 new gondolas to accommodate shippers. Had we had these cars at the beginning of the year, our increase would have been still more startling.

THE MASSILLON BRIDGE CO.

the Massillon Bridge Company has been in operation steadily during the past year, but, owing to the scarcity of material, has not been able to run to its full capacity at any time: consequently their output has not been as great as other years. The company has never known a year when the demand for structural mon was so great and the iron so unobtainable. The market for the products of this company is all over the United the past year, are three hundred and West Virginia, all on an inclined curve; one high truss highway span 170x18 feet the United States Government at San 180x14 feet for Lewis county, Mo.: six hundred and fifty-three feet of high truss bridging for Jasper county, Ala., and the eight-story addition to the Western Reserve Building, at Cleveland, O. At doned, was one of the company's mines. | present, besides the usual large number of small highway bridges, the shop is working on the buildings of the Massilan improvement in supply of cars for lon Iron & Steel Co., part of which are the past few months and shipments have now being erected, and three high truss been heavy. Everything continues to progress satis-No 2 is the only mine that has had an cast iron water pipe, as well as of all will also be increased. idle day since November 1. There has forms of iron and steel products, showed been no scarcity of cars since October its strength one year ago at the time when prices started on an upward trend

rise in price has been legitimate and

was caused directly from the fact that more pig iron was being consumed than was produced, and the stock of pig iron on the producers' hands had fallen in about ten years from over 1,000,000 tons, to about 100,000 tons. The latter quan tity fairly represents less than three days consumption. For the past forty years the production of pig iron has about doubled itself each ten years, and it would seem that fourteen million gross tons would fairly represent the quantity produced in 1890. Taking as a basis the pig fron consumed in November, we have as a probable consumption for 1900 a little over fifteen million gross tons. During the first half of 1899 it was supposed that the producers would push the capacities of their furnaces, and quickly arrest rising prices. For the past six months they have done everything possible to increase production and have of cast iron water pipe depends almost entirely on the price of pig iron, and during 1899, prices advanced from \$13 to \$29.50, F. O B. makers' mill. On account of what seemed to be prohibition prices-much pipe that would have been laid during 1899, was postponed and it would seem to indicate that 1900 should be a particularly good year for makers of cast iron pipe on account of water works managers and trustees becoming accustomed to the higher range of prices: they should, therefore, authorize the laying of pipe that should have been laid in 1899, together with pipe needed for 1900. All indications show that the additional cost of producing pig iron would be from \$6 to \$8 per ton for 1900 over 1899, and it would seem that the next fe v years would be prosperous ones, not only for the manufacturer but for all who are mutually interested.

CORNS IRON AND STEEL COMPANY.

The past year was a most satisfactory so at the mines producing steam coal, the sole purpose of handling coal and one for us, and the excellent conditions such as our mines at Mineral Point and Jother freight between Massillon and Na. continue into the new year. The out North Industry, on the C. T. & V. rail varre. look is very bright. All last year our mill was in steady operation day and night. Even during the hot months, when it has been customary to close down for a time, our orders forced us to keep the wheels going

TRADE REVIEW.

(Continued from page two.)

ous years combined. We have been behind orders since last summer and there is every indication that the increase is permanent and still growing. We employed three more skilled workmen, as many as our floor space would permit. Barring unforseen contingencies, we will build an addition to our factory in the

MASSILLON PAPER CO

We have been running steadily and giving employment to as many men as our space allows through the entire year, which is more than we could say of 1898. The outlook for the future is much better than it was at the same time last year.

REED & COMPANY.

We have certainly no cause for com plaining about the year 1899. Our force of employes was larger, and our capacity was increased with the addition of a new furnace, in last February. Consequently our business was larger, and our fleures will compare favorably with those of any year. The three furnaces that we have now in operation, give employment to 102 blowers. Our storage capacity has also been increased by the erection of several sheds. The excel lence of our ware is becoming well known, and last spring's heavy shipments included large ones to Mexico.

CHIPPEWA SAND AND STONE CO.

The Chippewa Sand and Stone Company, incorporated under the laws of West Virginia, whose main office is in Massillon, has three sandstone quarries and a sand mill in operation at Warwick, and daily makes large shipments of founders' moulding sand. It has leases on several hundred acres of sandstone at Warwick, and also owns the Warwick farm of 230 acres. Valuable deposits of fire clay exist there, besides salt rock, some 200 feet in thickness Art-sian wells can be had on the premises. Warwick as a shipping point is unexcelled in Ohio, four railways, coming together there. Our silica sand and founders' moulding sand business has been good, and we have been unable to fill one-tenth of the orders which came during 1899; facilities and increase our business durdwelling houses for our employes in War-

MASSILLON STONE & FIRE BRICK CO.

During the past year this company has increased the capacity of its plant fifteen per cent. At present seventy-five men and boys are employed, the works being operated day and night. The plant is located along the Pennsylvania railway, west of the city. Manager Hipp, who is the prime mover in the organization of the fire brick trust, expects to see soon the combination effected. The new year seems one of promise.

STONEWARE CO. The outlook for 1900 is encouraging. osts considerable more to manufacture. the small advance made in price of the ware this year, and a future advance,

at the close of next season. WARTHORST & CO.

Our sand output this season has been larger than in any preceding year. We season with a small stock of pressed bricks. The prospect for business in all lines for 1900 is very bright.

J. S. COXEY,

Our business was better during the past year than in any other since 1892. Shipments of silica sand have been large. Prospects are very gratifying.

MASSILLON SAND AND STONE CO.

The increase of our business of this year is 25 per cent. over that of 1898, cember 31, 1899: with prospects for the coming year never se good.

STAR SILICATE COMPANY. This newest of Massillon's several new

concerns now has its Walnut street works: in operation, and the manufacture of silicate of soda is in progress. There are few other institutions of this kind in the country, and the demand for the proauct is heavy. Henry Shriver, a member of the company, is in charge of the

WARWICK & JUSTUS.

Our output of flour and feed for 1899 has never been exceeded in any one year during the history of our firm. We have had an increased home demand and a fair export trade. We now have orders booked that will keep us running full time well into the new year. We have added some modern and most approved machinery during the year, increasing our capacity and maintaining the high

standard of our brands of flour. WEST SIDE MILLING COMPANY.

Although the prosperity of the past, year has not affected the milling industries as much as it may have som others, it has nevertheless been a good one. We expect to put in additions machinery in the near future.

MASSILLON MILLING CO.

The year has been a good one through Notwithstanding that we hav doubled our capacity we are still behind orders. Our foreign shipments wer large, Liverpool, Glasgow, Bristol, Dul lin, Belfast, and Hamburg being th points of consignment. Our busines with the large Eastern cities was also considerable.

The Massillon Show Printing Com pany has been in existence for about on year. It now gives steady employmen to fifteen persons. The business since October I has been so great as to neces state working night and day. Increases in plant and force will be made during the new year. The company does all the work of twenty-five theatrical con-

MASSILLON SHOW PRINTING CO.

cerns, among them being the Jolly Lot, Robert Downing, Keystone Dramatic Co., Russell's comedians and B. L. Wallace's minstreis. AMERICAN STEAM LAUNDRY. Business has doubled, new equipment has been put into service, our force has been increased. Taking everything into consideration, the year 1899 has been a

record breaker. We have placed orders

NewspaperAACHIVE®

for more new machinery, and expect to increase ou force to at least twenty.

MASSILLON STEAM LAUNDRY. The year has been the most successful in our seven years' laundry experience in Massillon. Trade is still growing, and we confidently expect the year before us to be productive of as good results as the one just passed. Additional machinery and help will be required to accommodate our patrons.

C. L. M'LAIN & CO.

The closing year leaves our affairs in a very satisfactory condition. Our net earnings represent an increase of ten per cent over those of the year preceding.

U. S. MAIL WAGON COMPANY.

The product of this company seems to increase in popularity. Five wagons were last week shipped to Kansas City, and other orders from la ge cities, near and distant, are on hand. A new wagon has also been furnished the Massillon office. Though the inventors, William and John Martin, reside in Massillon and the main office is located here, the manufacture of the wagons is carried on in Canton by contract. The time, it is hoped, however, is not far off when the company will have a shop of its own in Massilion.

EXPRESS COMPANIES.

C. R. Mills, agent, says that the business of the Pacific and United States Companies, out of Massillon, was medium through the year. Matter coming into Massillon and through expressage, however, was heavy. The fact that much matter, formerly express, is now dorn, Benjamin Kerstetter, Arline Hose, shipped out of Massillon by freight, is responsible for the light business out of the city. The addition of the Pacific company has made it necessary to put another wagon and man into service. C. L. Halter states that although the loss of rights over the W. & L E. railway, has somewhat affected the business of the Wells, Fargo Company in this city, its earnings for this year will yet average above those of last. The Adams Express Company, W. J. Strobel, agent, has enjoyed an increase of business proportionate with those of its competitors. MASSILLON WATER SUPPLY CO.

The business of the Massillon Water Supply Company for the past year has b en very good, having added eighty new names to its application book. The company has put down two new wells, thereby increasing the water supply for stone. We expect to enlarge our about 100,000 gallons per day. It has also laid 685 feet of 4-inch, 530 feet of ing the years to follow, besides adding 6-inch, and 300 feet of 8 inch pipe and set six new fire hydrants, making 24 miles of mains and 266 hydrants. A little Jewel engine has also been added, with a 32 light generator, which is of sufficient size to light up the pump house fifteen per cent, and employes have and grounds, thus doing away with the been granted an increase in wages of, oil lamps and making it much more safe, as well as lighting up the station 50 per cent. better. The collections have been some better than a year ago, but not what they should have been, considering the times.

ARTIFICIAL ICE CO.

It will be necessary for us to increase the capacity of our plant during the coming year. In addition to the local demand, we have had a steady stream of orders from out of the city. Our plant The Ohio stoneware manufacturers are is now in operation, a most unusal condino longer making the old salt-glazed tion for this time of the year, but the ware, but are offering the trade bristol recent warm weather and the continued A Getz, Carl Deckard, Henry Myers glaze or white ware. While this ware demand would not allow us to shut |down.

J. W. SHUSTER.

During the past year we have enjoyed which goes into effect next month, an increase in business of several thoushould enable us to make a rair showing sand dollars and unless all signs fail there is another increase in store for us this year. We are anxious to remove our brewery to Massillon. If a suitable location that could be bought for what it have been unable to fill all orders for is worth would come to our notice, we block and bridge stone. The grindstone would not hesitate a moment about puttrade has been good. We will close the ting up the finest building in the city as ting up the finest building in the city as our home. With the brewery, of course, will come all of our workmen who now live in Millport.

STOPPED FREE Permanently Cared Insanity Prevented by DR. KLINE'S GREAT

BIRTHS LEAD BY 38.

Though the Death Rate is Highest in Years.

WHAT THE RECORDS SHOW

More Births and Deaths Occurred in February Than in any Other Month -Mrs. Sarah Reed was the Oldest

Person Who Died During the Year. During the past year, 225 Massillonians were born, and 138 died. In 1898, there were 269 births and 108 deaths. Despite the great increase in the death rate, so Health Officer T. Clarke Miller stated today, there was practically no contagious diseases and not much sickness in the city during the past twelve months. Following are the names of the decedents of the year, as recorded at the health officer's office:

January-John E. Axxe, Frances Kriyer, Henry Wilhelm, Nelson Porter, H. Shaidnagle, Andrew Smith, Daniel Felix, James Keller, Catharine Hecka Cora J. Copeland, Sarah J. Russell, Alonzo F. McDougal, Mary Freeman.

February-John Bloez, Solomon Krider, Marie Bamburger, Estella Hose, Josephine Wiener, H. Schriver, Rebecca Fraser, George Bayliss, Emil Clementz, Catherine Rinder, John Kohler, J. E. McGuire, H. J. Vogt, B. Byskonski, J. A. Routson, Elizabeth Von

Kanel, A. J. Koontz, John McFarren March-Thomas H. Kemp, Arthur Witt, Elizabeth Fink, Joseph Eberwein. Jacob Yager, Sophia Simon, Roy Falor, Frank A. Howenstine. Christian Bitner. Charles W. Rossell.

April-David Von Kanel, E. Frantz, Maud McGuire, R. H. Wainwright, John Preese, Rosa Gross, Earl Greeen, V. Smith, Charles McGuire, Oscar Boorn, George Schaffert.

May-W. Waltz, Lewis Buttermore, Albert Bamberger, Martha Bullock, Elizabeth Heisener, R H. Folger, Gilbert Slicker, Henry Beatty, John Becker, Anna Senn, William Beck, Henry W. Smith, Narcessa Griffin, Edna Kohl. Frederick Geis. W. Schworm, T. Knab. June-Albertus Arthur, Elizabeth

Inez H. Griffith, J. Fidler. July-Amelia Kennard, Bertha Un geshicht, Catherine Maier, Orton Har wick, Cora Woollen, Joseph Donnelly, Thomas Laviers, Magdalena Young

Stoller, J. B. Barton, Mary Wensinger,

Conrad Witt. August-George Decker, Michael O'Connor, Emma Myers, William Ue bernickel, Peter Smith, Frank Barkey, Marie Roseman, C. Lawrence, Jerome

September-Joseph Stratton, Richard Austin, Charles Stauffer, Anna Miller, J. C. Chapman, Mabel Fowles, W. J. Kurtz, Elizabeth Hose, Sarah Wagner.

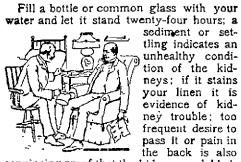

October-Nettic Landis, Emma Char Litta Hoover, Ernest Wissmar, Catherine Zuber, John M. Walker, J. G. Harberger, James Foster, William Keirigan, A. G. Berky, Michael Darby, Elizabeth Heckadorn.

November-Grace Perritt, Ralph Thomas, Flora E. Hipp, Solomon Butler, Elizabeth James, Christian Dula bahn, Catherine Labb, Ceha Huth, Jerrold Lawrence, Jennie Stocker, Chris tian Knodel, Barbara Jenior, J. W. Ry der, Anna Reynolds, Sarah Reed.

December-Isabelle M. Davis, Nancy Reeves, Albert Seifert, John Marsh, Kov

Thousands Have Kidney Trouble

and Don't Know it. How To Find Out.

tling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and blad-

What to Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this

wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Rome of Swamp-Root. Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

FUGITIVE AND ABSCONDER.

The County Treesurer at Lancaster, Pa., Missing and Found to Be Short Over \$65,000.

LANCASTER, Pa., Jan. 2 .- The contin**u**ed absence of County Treasurer E. H. Hershey and the ugly stories concerning his accounts which have been affoat for a week past prepared the public for the formal announcement that he is a defaulter and absconder to the amount of \$65,000. Speculation and poker are believed to have practically eaten up the entire amount of the defalcation.

There is on deposit in the banks of this city \$61,840, while the books call; for \$120,840. There is due the state for tax on money at interest for 1899 the sum of \$84,000, of which three-fourths comes back to this county, hence the net sum owing the state is \$21,000. Hershev is believed to have gone to

The office was turned over to the new treasurer when the shortage was offici ally announced to be \$65,042.41. Two of the bondsmen are brothers of Her shey, and one composed with the treasurer the firm of Amos Hesshey & Bro. of Gordonville against which execution for \$39,000 was issued last week. These judgements were held by relatives and were confessed but a few days previous.

They will likely be contested and it was expected will be stood aside. The other bondsmen represented the different banks which held the county deposits, and it was expected the shortage will be made good without litigation.

Had Bi; Contracts on Hand.

PITTSBURG, Jan. 2.—It was recently said that the Riter-Conley Manufacturing company had more than \$5,000,000 worth of work on their books. Among the large contracts this firm had or hand were the furnaces and steelworks for Dominion Iron and Steel company, Limited, Sydney, C. B.; the open hearth furnaces for Nova Scotia Steel works, at New Glasgow, N. S.; the powerhouse and stacks for Bristol Trainway and Carriage company, Bristol, England. and the powerhouse and stacks for the Glasgow tramways, Glasgow.

Populists to Have a Candidate.

BIRMINGHAM, Ala., Jan. 2. - The Populists state executive committee will put a candidate of its own in the field for United States senator. Neither Senator Morgan nor Governor John ston will, therefore, get the Populisi support. A resolution was adopted by the committee calling upon ex-Congress man M. W. Howard to make the senate

Brighter For Pittsburg.

PITTSBURG, Jan. 2.—Superintendent and General Agent Robert Pitcairn or the Pennsylvania railroad authorized the statement that while the allotment of \$13,000,000 for improvements had not been definitely decided upon, that the setting aside of the vast sum would make the prospect for a new Union station much brighter.

Mrs. Stone Received.

HARRISBURG, Jan. 2.-Mrs. Stone re ceived informally at the executive man sion. She was assisted in receiving by her holiday guests and the debutanter of the season. The reception was foll lowed by a dinner, at which covers were laid for 40 guests.

Nine Saved From Wreek.

CAPE HENRY, Jan. 2.—The weather bureau official at Hatteras furnished the following list of those saved from the wreck of the steamship Ariosto: Captair Baines, Warren, Reed, Pettonen, An derson, Salme, Helsing, Petterson and

Calvin Parson Dead,

WHERESEARRE, Pa., Jan. 2. -Calvir Parson, one of the most prominent citizens of Luzerne county, died at his home in Parsons, aged 84. For over 50 years he was an elder in the Presbyter-an church.

A Proverb Calender for 1900.

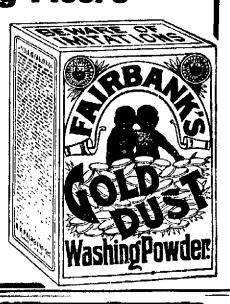

Each year when we receive the Hood's Sarsaparilla calender we wonder how it is possible to originate such clever designs. The "Proverb Calendar" itself is suspended in front of two little tots, one robed in delicate pink and the other in blue. On the reverse side there are the usual astronomical calculations and other facts. The calendar is made to stand alone on desk or table, or it may be suspended on the wall. You should be sure to get one of these calandars from your druggist, or one will be mailed to you by sending 6 cents in stamps to C. I. Hood & Co., Lowell, Mass.

THE EVENING INDEPENDENT IS OR nie at Bahney's Book Store, Bammerlin's Cigar Stand (Hotel Conrad), Bert Hankin's News stand in Booth Mill street.

THURSDAY JANUARY 4 1900.

Although Stark county fared badly at the hands of the legislative caucus of the Republican party on Saturday, the organization of the House and Senate is generally satisfactory, and there is every reason to believe that the most active and united efforts will be made in both branches to carry through at the earliest

dignity among the sport-loving Texans. It is impossible to imagine a future President of the United States turning himself into a jockey, and an ostrich Death Comes Suddenly to jockey at that, for the amusement of the public. A street adherence to Jeffer. sonian principles does not necessarily call for an exhibition of horseplay from the man of national affairs.

splendid generosity of Andrew Carnegie in the matter of library giving, Massillon and Canton can take a good deal of satisfaction in the knowledge that their collections of books, as well as the buildings which shelter them and the funds for their maintenance, have been and are provided by residents of the respective cities. Canton is much to be congratulated upon the handsome gift which its library has just received, and which will render possible many improvements in that institution.

It is reported that the Carnegie Steel the order of the day. Since the restoration of the protective system, the company cannot get coke enough from or Impressive Service on Sunday Morndinary sources for daily use.

expenditures of the government for the last fiscar year, rendered to congress by Secretary Gage, the smallest receipt noted is twenty cents, the fee for a Chinaman's certificate. From illegal ernment profited to the extent of \$3, while the sweepings of gold from the treasurer's office at Washington netted one dollar. In transacting a business involving over a billion dollars a year. and an equal or larger means of expen-

ican factory products, are making rapid fit of practical ideas combined with utility."

The opening of the new year finds General Otis facing conditions in the Philippines which show that his tremendous task is nearly finished, and that he will soon be able to lay down his heavy burden with great honor to himself. The latest report from Manila shows how absolutely the insurrection is now confined to the Tagals. Outside of their influence the country would soon be more peaceful than it ever was under the Spaniards. The Taga! provinces are likely to cause some trouble in a small way for some time, and guerilla warfare will doubtless be attempted, but only in the Tagal provinces or by Tagals. The possession of guns enables them to levy tribute on the peaceful natives. They are actually only brigands, and their suppression is a matter of police

INDEPENDENT has presented so voluminous or interesting a review of trade as that which appears today. In 1897 Massilion manufacturers began to look up under the revivifying influence of the McKipley administration; last year every branch of local business was evincing an encouraging degree of prosperity and

business men were looking out upon an encouraging future. This year the high tide of prosperity has been reached. every branch of manufacturing trade is booming, orders are coming in faster than work can be gotten out, workingmen are receiving satisfact ry wages with regularity, and the smaller retail establishments are doing business accordingly. Massillon is having a full share of the blessings of Republican protection and prosperity.

The opening of Chicago's great sanitary canal marks the consummation of one of the greatest engineering feats in history. The clear waters of Lake Michigan now pass through the channel to the Mississippi and the Gulf of Mexico. In 1674 Pere Joliet, the Canadian explorer wrote, "we can easily go to Florida in boats and by a good navigation. There would be but one canal to make, by cutting one-half a league of prairie to pass from the lake of the IIlinois into St. Louis river." The old Frenchman's suggestion has been carried out, and some day the great waterway may carry boats "by a good navigation" from the great lakes to the gulf. The fact of first importance to Chicago at present, however, is that its water supply is now protected.

John McIntosh.

HE WAS AT A BUTCHERING.

Apparently in His Usual Health and Spirits, He Went to His Farm, Southwest of the City, to Give Directions Concerning the Work.

John McIntosh, of 292 West Tremont street, while superintending a butchering at his farm, southwest of the city, at 10 o'clock Tuesday morning, died suddenly. He seemed as vigorous as usual earlier in the morning. He was seen to fall where he stood, and was dead when the nearest man reached him. Paralysis of the heart was the cause of death. Mr. McIntosh was 72 years old, and leaves a family or eight children: They are John, who is now in Michigan; Norton, of Barberton; Samuel of West Brookfield; Mrs. Cora Stroh, of Barberton; Mrs. Elmira Whitmore and Mrs. Sarah Stoner, of Pigeon Run; Mrs. Anna Harrison, of Sandyville, and Mrs. Frank Stoner, of Navarre station. Mr. McIntosh was a

ST. TIMOTHY'S CONSECRATED. ing-Bishop Leonard's Sermon.

St. Timothy's new church was consecrated on Sunday morning by the Rt. Rev. W. A. Leonard, D. D. bishop of D. D., dean of the theological seminary the theological seminary, and the rector of the church, the Rev. C. M. Roberts, in the presence of a large congregation. According to the prescription in the consecration of a church or chapel, the bishop was received at the entrance of vestrymen passed up the aisle to the chancel, where the impressive ceremony proceeded. The instrument of donation was read by James K. Peacock, junior warden. The other vestrymen are E. B. Upham, senior warden; T. J. Dillon, brecht, John Gow, F. W. Arnold, H. B.

Garrigues and H. C. Dielhenn. The sermon was preached by Bishop Leonard, who spoke of the opportunities within the grasp of mankind in the of the necessity for the further development of the work already accomplished elevation of the world. He congratulated the congregation of St. Timothy's labors in the acquisition of the beautiful structure, free from debt and now formally set apart for the service of God. The consecration of the old St. Timo by the Willard Newell company. thy's took place on May 13, 1843. The first service in the new church was held

on December 26, the day following. Dean Jones, of Gambier, preached at prophecies of Isaiah, in which are contained hope and encouragement for manspiritual, but upon the material difficulties and trials of christian life.

Bishop Leonard, who was a guest at the residence of Mr. and Mrs. F. L. Baldwin during his stay in the city, returned to Cleveland on Sunday afternoon. Dean Jones was entertained at St. Timothy's rectory. The Rev. Dr. Davis, who preached at this morning's Epiphany service, was the guest of Mr. and Mrs. E. B. Upham.

A MERRY FEAST.

The Independent's Newsboy's Dinner.

GUESTS NUMBERED 108.

All Eat to Content of Heart and Stomach, and Then Listen to an Address by Edward H. Bachtel-Mr. Coony's Absence Regretted.

As predicted, THE INDEPENDENT'S fourth annual dinner to its employes and the newsboys of the city, served at the Hotel Conrad, Monday afternoon, proved to be an unqualified success. One cloud, however, cast its o'ershadowing influstances prevented James Cooney, the re vered patron of all newsboys, from lendner oration, for which the boys had exlect of his own.

At 8:30 Monday morning the first hungry boy put in his appearance and from that time until the hour of departure the number was ever upon the increase. At 1:10 a telephone message was received from Mr. Bachtel, stating that he was on his way, and at 1:15 'mid the enthusiastic cheers of a hundred youthful voices, he took his place as grand marshal of the procession, which had been formed in front of THE IN-DEPENDENT office. The hotel office reached, under the mass of beautiful flourishes and graduated shading that represented the name of its intrepid leader, each member of the little command in his turn registered his name.

and at 2 o'clock, 108 strong, marched selves at the tables. For the first fifteen minutes young America diligently applied itself to the ministering to the inner wants, and toward giving employment to the large force of waiters present. Then the band of the "Jolly Lot" company began to play, and a hundred during the entire afternoon, never for an object of the gathering.

During one of the latter periods, Mr. Bachtel was introduced as the speaker of the afternoon. Immediately there arose such a cheer as the historic Conrad Ohio, assisted by the Rev. W. H. Jones, has never before heard. In solemn maj esty Mr. Bachtel rose to the full height at Gambier, the Rev. Dr. Davis, also of of his noble stature. The cheering increased, and with face flushed with pride Mr. Bachtel remained standing. Matters had begun to quiet down, and Mr. Bachtel had already made his initial rubric of the prayer book service for the bow, when Harry Davis discovered Nicholas Nicodemus Meyers in the act of appropriating from his plate a dish the church by the vestrymen, after of ice cream, and substitting therefor a which the bishop, the clergy and the dish whose delectable contents were no more. In the confusion that followed, Mr. Bachtel quietly sank into his chair.

Once more was quiet restored, and a second time arose Mr. Bachtel, and forth from his lips, with sweet and modulated intonation, flowed these words that alone will ever serve to make the occasion a memorable one: "Ladies and Gentlemen: In the name of these assembled guests, I wish to thank the Independent Company, Manager Arnold, ('Don't foropening vista of the coming century and | get the band,' from the boys, 'Shut up,' from Mr. Bachtel) and these kind waiters for the good dinner served us this afternoon, and the baud for the excellent selections rendered." (Immense and prolonged applause during which Mr.

The menu cards were among the hand somest ever seen in the city. On the on Christmas day, 1898. The service of outer cover was embossed a beautiful colors, while the bill of fare was printed the evening service. His sermon was a sampled by the boys with epicurean exscholarly exposition of some of the actness, and words of criticism were far from their minds. The renowned turkey, which, on former occasions, was kind through their bearing not only upon | king of the feast, seemed to be relegated to the rear, and for this time, at least. superseded by ice cream.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years great many years doctors pronounced it a local disease, and prescibed local remedies, and by constantly failing to cure with local treatment, pronounced it inrequires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system They offer one hundred dollars for any case it fails to cure. Send for circulars

J. K. RUSSELL RESIGNS. Gives up a Postion Held for 35

Years-Still a Member of the Firm.

Jo eph K. Russell has resigned his position as superintendent of the wood department and as lumber purchasing agent for Russell & Company's plant. Mr. Russell has served in this capacity for the past thirty-five years. He has been identified with the firm for thirtysix years, and although retiring from an active participation in its daily affairs, his connection with it, will remain the same as heretofore.

Western Ohio Men Adopt Resolutions.

MESSRS, GREEN AND DAVIS

Men Shower Upon Them Their Thanks for Good Treatment-Supt. Green Says That He Would Go After Inspectorship if He Thought Moore Would Not be Reappointed.

The miners and other employes of the Western Ohio Coal Company's Massillon district mine, from which the last coal was hoisted a short time ago, the other day unanimously adopted the following resolutions, which are now being engrossed on parchment:

"Having been employed by Superin tendent J. L. Green continuously from the opening to the closing of the mine, and having always found him and his pit boss ready and willing to listen to all reasonable demands, and the further fact, which proves the same, that we have never had one hour's local strike or

"Resolved, That we, as employes of said J. L. Green, extend to him as such and to Mordecai Davis as pit boss our sincere thanks for their kind, courteous and just treatment, and hope that 'ere tong we shall again be employed by

The signatures to the resolutions include those of President Thomas Dall and Secretary C. H. Roderick.

The Western Ohio mine was opened in the fall of 1895, the owners being A. Returning From a Massillon Visit, G Blair, of Toledo, and W. E. Connors and Frank R. Lawrence, of New York. A receiver was appointed a year or so later, and the mine was in his hands for twelve months, or until W. J. Mullins, of Wooster, took the property for the debts. Superintendent Green is now at his West Tremont street home, recovering from a severe attack of grip, though none the less interested in mining polivoices, giving vent to an exuberance of tics. "According to a well established custom," said Mr. Green, "District reached the crossing of the Cleveland vention, when he could have elected him-Mine Inspector W. K. Moore should be allowed at least to fill out his term If I railway at about the same time as a thought for one minute that Governor swiftly moving belated train. The Nash would not appoint Mr. Moore, I engine struck the horse, killing the received a vote of thanks. True merewould go after the place myself, believing my chance would at least be equal I have always found Mr. Moore a fairminded man and a thorough Republic-

> Speaking of the probabilities of the miners receiving an advance in April, Mr. Green said: "The miners will undoubtedly receive a raise. The amount will be governed by conditions. If the miners are conservative, not pinning too curve. To the east is a deep cut, makmuch to their demands in the shape of dead work, they will get a good substantial raise." Mr Green states that the Mullins Coal Company's output of man ought to be stationed here by the Massillon coal is greater than any other railway company. This last accident company operating mines in this district. HE IS WELL QUALIFIED.

William Knight, the Massillon man who is after the position of district mine inspector, is both a practical and scientific miner, having, a year ago, when a candidate for the same office, passed an examination that laid low most of the other aspirants. Mr. Knight goes into the race with many and powerful endorsements.

THE CEMETERY ASSOCIATION Business Transacted at the Meeting on Tuesday Afternoon.

The January meeting of the Massillon Woman's Cemetery Association was held on Tuesday afternoon in the public library building. The treasurer's report showed that the funds of the organization have increased over \$100 since the last meeting. The resignation of Miss Blanche McCue as chairman of the entertainment committee was reluctantly accepted. Miss McCue has served in this capacity for two winters and under benediction was held by Bishop Leonard and appropriate New Year's design, in her direction a number of successful entertainments have been given. Mrs. T. in gold within. The various dishes were Warren Meyers was unanimously elect ed as her successor.

The following resolutions was adopted: Resolved, That the success of the entertait ment at the Armory recently, for the benefit of the association, was due to the untiring efforts of all those who took part, and that thanks are due to members of the "Mikado" chorus, to Miss McCue, chairman of the entertainment committee; Miss Grah m, accompanist; Mrs. H. L. McLain, Miss Lida McBride, was supposed to be incurable. For a Mrs. C. F. Porter, Mrs. A. H. Coleman, Skinner at Marseilles by receiving a pipe and Messrs Ryder, Hays, Shepley and Lyon; that special thanks are due the ments Mr. Cooney on learning that he cousin of the bride, acted as bridesmaid. rector and vestry of St. Timothy's church has the best mules in Stark county. Miss Jenny Cully played the wedding curable. HEUMATISM

ing into the clutches of the relentless demon almost unconsciously, while others are stricken at once with all the severity the disease is capable of inflicting, making the robust man of to-day the cripple of to-morrow. While the greater per cent. of sufferers from Rheumatism are people well advanced in years, yet the alarming increase of the disease among persons in the prime of life calls for the most active efforts on our part to make known the positive curative properties of S. S. (Swift's Specific). Medical authorities agree that Rheumatism is due to an acid reject. acid poison, therefore the only way to cure the disease should be to thoroughly eradicate this peculiar poison from the blood; but the system of a person afflicted with Rhaumatism is sabadly decembed that it can afficie with Rheumatism is so badly deranged that it can not recuperate under the noxious treatment of physician's potash and mineral mixtures. Their method of endeavoring to effect a cure by substituting one poison for another creates a complication of new disorders that reduce the patient to a state of com-

plete collapse. S. S. S. by its great solvent properties neutralizes this poison and eliminates it through the channels nature has provided for the exit of refuse matter, and being purely vegetable, stimulates and strengthens the stomach and general digestion

"For years I suffered with Sciatic Rheumatism, which the best physicians were unable to relieve," writes Mr. Asa Smith, of Greencastle, Ind. "I took many patent medicines that did not reach my trouble, and gradually grew worse until I was in such a helpless condition that I could not take my food or handle myself in any way, I was absolutely helpless. A few bottles of S. S. relieved me to such an extent that I was soon able to move my right arm, and before long I could walk across the room, and continuing the treatment I was completely cured and am as well as ever."

S. S. S. CURES RHEUMATISM.

Mr. J. R. Manson, of Murfreesboro, Tenn., writes: "Several years was afflicted with what the doctors called Sciatic Rheumatism or Lumbago, suffering the most intense agony at times, and being confined to my bed for about a year, although four of the best physicians (one of them my father) attended me during my illness. They could give me only temporary relief, and I think they tried about all the remedies known to medical science, dosing me with strong medicines until my stomach got into such a condition that I could digest nothing and neither myself nor my friends had any hope of my recovery. I was persuaded to try S.S.S, and before finishing the first bottle I found I had the right remedy. I continued to take it until it cured me perfectly. This was about nine years ago and I have been in splendid health ever since."

We have just issued a new and valuable book on Rheumatism a copy of which we will be pleased to send to this disease. SWIFT SPECIFIC CO., Atlanta, Ga. all afflicted with this disease.

W. & L. E. Trains Collide at Lodi Sunday.

DEATH ALMOST INSTANT.

Second 65 Crashes Into No. 62, While Lodi-Engineer Potter and Fireman Yohn Pinned in Wreckage-The Former Killed and the Latter In-

West bound W. & L. E. freight No. 62 and east bound second 65 collided opposite the Lodi station Sunday morning. Engineer Frank Potter, Fireman John Yohn and Conductor William Burns had charge of No 62, and Engineer Graves. Fireman Hislop and Conductor Rapstock of No 65 Engineer Potter was so badly mjured that he died before being extricated from the debris, and Fireman Yohn was seriously injured. The members of the crews resided in Massillon. Potter was about 33 years of age, and leaves a wife and two children, who re side at Norwalk. During his residence in Massillon be boarded as the Wilcox hotel. A committee of engineers, composed of George Vickery, Charles Foster. B. D. Shedd and Erwin Mears left for Norwalk this morning to take charge of the body. Burial will take place at Norwalk. Yohn, whose home is in West Brookfield, was brought to the city today. He will recover.

A large curve in the road beginsat the point where the accident occurred. Train 62 had stopped to take water at this place. Potter and Yohn, it is said. were standing in the cabin reading or ders which they had just received, when second 65 came around the curve at a high rate of speed and crashed into the standing train.

Engineer and fireman sustained their injuries by being jammed between parts of the wreckage. Both engines were badly damaged, and a car demolished. General Superintendent! Stout states that the accident was caused by Engineer Bert Graves, of the east bound train, falling asleep Immediately after the accident, Superintendent Merwin received the following telegram from Graves: "Am responsible for accident. Accept my resignation at once." Officials say that immediately after sending this message the engineer, who seemed to be heart broken, took a B. & O. train, and left for parts unknown. Previous to the accident Graves is said to have had eighteen hours' rest, so that his neglect of duty cannot be at Philip Burkhardt K. lled on the Fort tributed to overwork.

OBITUARY NOTICES.

JOHN GEORGE BULLINGER

John George Bullinger was born in Laundau, kingdom of Bavaria, June 12, 1824, and died in Massillon January 1, 1900, aged 75 years, 6 months and 19 days. A widow and four children survive to mourn his death. Mr. Bullinger came to America in 1836, and to Stark county in 1837, and has been a resident of the county over sixty-two years. He was married to Miss Hannah Cookhols Ocborn to them, of which Louis, of Cantan; Theodore of New York city: Frank, of Akron, and Miss Laura, of Massillon. and ten grandchildren survive him. On October 25, 1898, Mr and Mrs Bullinger celebrated their golden wedding The deceased was a member of the Liederkranz Singing Society, the Massillon Pioneer Society and was a councilman several terms from the fourth ward, of which he was a resident for forty one years, and where his funeral will be held at his late residence, 210 North street, Wednesday afternoon at 2 p m. Interment in the Massillon cemetery. MRS. REGINA FERNENGAL.

Mrs Regina Ferneugal, aged 50 years, a state hospital patient, died yesterday of exhaustion. The body was today taken to Salem for burial.

KARLE. HIERMAN.

Karl E. Heierman, aged 19, second son of Mr. and Mrs Frank Heierman, of Austin. Texas, and grandson of Mr. and Mrs. Daniel Hemperly, of this city, died sud denly at the home of his parents, January 2, of congestion of the brain.

A SPECIAL OFFICER.

Curfew Ordinance.

NAVARRE, Jan. 3 -The village council last evening appointed A. J. Dougordinance. His salary will be \$40 a month. The marshal's salary is but \$30, has done for others, and and the difference is making lots of trouble. Douglass went on duty last night. He made no arrests. The minimum fine for violations of the curfew ordinance is fifty cents.

OPERATIONS RESUMED. Three-shift Plan Instituted at the Rolling Mill.

Operations at the rolling mill were resumed this morning, after a suspension of a trifle more than a week while repairs were being made. The men cmployed in the puddling department will hereafter work eight hours, three-shift rule have been instituted. Heretofore there were but two shifts.

ARRESTED IN CANTON.

The Man who Stole J. J. Bast's Horse Now in the Hands of the Law.

A telephone message was received at the mayor's office this morning from Marshal Reinhart, of Canton, stating that Frank Moore, who is wanted in Massillon for stealing a horse from J.J. Bast last summer, had been arrested there, and if desired would be turned over to the local authorities.

Before Marshal Kitchen had arrived in Canton, however, Mayor Roberston had given Moore a hearing on the charge of stealing a pocket book, the theft hav-Taking Water Oppos te the Depot at ing taken place some time ago, and had given him a sentence of thirty days in the workhouse. On the expiration of his sentence, however, the prisoner will be arrested and held to answer the Massillon charge.

MAY PROVE FATAL.

J. Friedman Injured in an Electric Line Accident.

HE BECAME BEWILDERED.

When He Heard the Car, Instead of Moving Out of Danger, He Stepped Toward the Tracks, and was Struck by the Steps.

Jacob Friedman, aged 73 years, who resides in Young street, was struck by an east bound interurban carat Snyder's curve, just this side of Reedurban, at about 11 o'clock Wednesday morning. Mr. Friedman, though frightfully injured, was partially conscious when he was raised from where he had been thrown. "I heard the car coming," he said, in reply to an inquiry. "I wanted to get out of the way, but went in the wrong direction."

Conductor Piero and Motorman Gibson were on the car which struck Mr. Freidman. They say he was out of danger at the side of the track when he first heard the car. Then he became bewildered, and moved toward the rails. The steps of the car hit him. The motorman, when within forty feet of Mr. Friedman, reversed the current, but the car did not come to a standstill until it was a considerable distance beyond the scene of the accident. Mr. Friedman was removed to the Aultman hospital, at Canton. The physicians found a compound fracture of the left leg and several broken ribs. Owing to his advanced age, his recovery is very doubtful.

NEWS FROM CANTON. Wayne Railway Tracks.

Canton, Jan. 2.-While walking on the Fort Wayne railway tracks, Monday forenoon, at the intersection of East Fifth street, Philip Burkhardt was struck by a locomotive and so badly injured that he died while being taken to his home in an ambulance. Mr. Burkhardt was 62 years of age, and was agent for the Hoster Brewing Company and proprietor of a bottling establishment. He had been a resident of this city since

Joseph C. Dueber, aged 28 years, died at the home of his parents on Sunday, after a lingering illness. The funeral was held at St. John's Catholic church at 9 o'clock this morning. Deceased was a son of John C. Dueber, of the Dueber Watch Company.

The new superintendent of the Stark county workhouse, John Yarger, assumed the management of the institution Monday morning. The regular monthly meeting of the board of direc tors was held today.

Alonzo Smith has been appointed executor in the estate of Joseph Smith, of Perry township.

John Zollars has been appointed executor in the estate of Sarah Zollars, of Perry township.

FACTS ABOUT THE RAINFALL Record for Last Year Shows Some Very Wet and Very Dry Months.

According to the record of the Massillon Water Supply Company, the Massil lon rainfall for 1899 was 34 04 inches. In 1898 the rainfall was 44 27 inches: 1897, 33 21; 1896, 38 19; 1895, 26 84; 1894, 24.04; 1893, 33 92; 1892, 33 33. The rainfail for last month was 2 72 inches. That of the same month in the preceding year was 2.20. The wettest month last year was May, in which 6.44 inches of rain fell. The driest was August, with .44 inches.

NAMED FOR PROMOTION.

McRae, of Arkansas, Offers a Joint Resolution, Defining Our Relations to the Philippines-Secretary of the Treasury Asked to Furnish Infor-

Washington, Jan. 3.—Representative in the House, directing the secretary of the treasury to give to the House information, including letters, documents, etc., passing between the treasury department and New York banks relative to the depositing of public funds in those banks. He asked for an immediate consideration, but objection being made, it went to the committee on ways and means. The House then adjourned

till Thursday. Representative McRae, of Arkansas, offered a joint resolution to the effect that the object of the United States in reference to the Philippines was to establish a stable independent government as soon as the present rebellion was subdued, and that the United States guarantee to the inhabitants protection from all other nations.

Senator Chandler offered amendments to the currency bill, declaring it the Stomach Bitters, a medicine that has policy of the government to maintain many imitators, but no equals It cures the use of both gold and silver as stand- dyspepsia, indigestion, biliousness, conard money, at such equality of value as also prevents malaria, fever and ague. may be fixed by international agreement, and keeps the bowels regular When and that the President be empowered to not beeling right, take a dose. The President today nominated Brig adier General Bates to be major general of volunteers; Brigadier General Wheat true nerve strength. only cathartic to take with Hood's Sarsaparilla.

ton to be major general of volunteers by brevet, and Colonel Young, Lieutenant Colonel MacArthur and Lieutenant Colonel Ludlow to be brigadiers.

ENGLISH WILL ADVANCE. Amendment Offered to Cargo of the Captured German Vessel.

> LONDON, Jan. 3 - By Associated Press]-The Tugela river is new fordable, and stretcher bearers have been called for by General Buller. It is supposed the British advance will soon be made. Reported that the German steamer Bundesrath, captured last week, had on board five big guns, fifty tons of shells and one hundred and eighty trained artillerymen.

> > ALL ALONG THE LINE.

Sulzer, of New York, offered a resolution | Heavy Fighting in Progress at Molten and Colesburg.

NAAUPORT, Jan. 3 .- By Associated Press]-Heavy fighting is now in progress in the hills around Colesburg, and the Boers are slowly retreating. The British hold a position to the extreme south and east, overlooking the town.

STERKSTROM, Jan. 3 - [By Associated Press |- The Boers attacked Molten this morning in force, and a fierce battle is now being fought.

The Latest X Ray Invention Is the Endoscope, which is for the pur-

pose of examining the interior of the stomach. It is claimed that, with this instrument, he treatment of stomach troubles will be revolutionized, as it lecates the cause of disease. With due respect to scienc , however, would state that the causes of stomach troubles have been known for the past fifty years, and likewise their cure, which is Hostetter's supation, nervousness, insomnia. It standard medicine of the American people. Look for Private Revenue Stamp over neck of battle.

ROBERTS' CASE EXPLAINED Rafferty Tetts Madden flow Polygamy

Started -- A Bibical Incident. "I see the women are makin' a great fuss about this man Roberts," said Madden to Rafferty. "What is it all

heavyweight?" "He's nayther wan nor the other." replied Rafferty. "He's only a Congressman

about? Is Roberts a lightweight or a

"Well, he might be a dacent man at that," said Madden. "I know meself wan or two Congressmin that's as good as anny liquor-store keepers. But

what ar-re the women kickin' about?" "They are kickin' bekase they say that Roberts is tryin' to destroy the sacriduess of the marriage relation,'

replied Rafferty. "Dear, dear," said Madden in a bushed tone. "You don't tell me so. Is he doin' it wid a meat-ax or how?"

"Arrah, no, man," said Rafferty, in disgust. "He's doin' it by rayson of bis dignacious manner o' life. He's a poly-game-ist."

"He plays a polly game, does he? Ah, the b'ast! Well, well! But tell me, Rafferty, is the game anything; like football or hurley?"

'Tis a little more lively nor lawn tinnis, Madden, as Roberts'll find out before the women of America get through kickin' at him. A Yankee woman is no good wid a brick but L'ave another woman come foolin around her husband and thin she's as handy wid her tongue as a stove-leg. Look here, Madden, you don't know it but you're a mon-a-gam-ist, that's what you ar-re."

"You're a Har, Rafferty! I'm as good a catholic as you ar-re, and maybe betther. Didn't I give \$5 to build the new Cathadral in Sligo! Take off your coat, you Scot, you! I'll t'ach you who is a mahoginy! Take it off, or I'll strike you sittin'!'

Sputtering with rage, Madden came out from behind the bar, throwing his boy. coat on the floor. With a disdainful wave of the hand Rafferty stopped him, exclaiming:

"Keep quiet, you ignorant Commoch," you! A mon-a-gam-ist is not a thafe. He's a man that thinks wan wife enough for a man."

"Ah, ha," said Madden, mollified. "Faith, I'm afther thinkin' so meself. I've seen the time whin I thought wan was too many, and she only weighin' eighty-five pounds."

"Now you're talkin' rayson," said Rafferty. "The substanshality o' that argymint 'Il never be corrogated if 1, know annything about the faymale sex. Well, now, to resoom, as the ass said to Balim: A poly-game-ist, yonu musht understand, Madden, is a man that thinks he has a right to as many wives as he likes, and that's what's the matterh wid Roberts."

"Begorra, he's like the man in the Bible that had three hundred wives and four hundred percupines, ain't be?" sald Madden. "He's not quite so bad as that, Mad-

den. He has only three wives." "Poor man! And is he still alive!

But, whisper, Rafferty,; they ar're not Irish, ar-re they? "You may bet the soles off your

shoes they're not Madden. What at the ind of two hours? Till me that, quired the cause of his sufferings. Talk about Majuba Hill! The Irish gir'rls have a way o' pullin' an iron- and thirsty, and took a large draught though the finger may be sore for a figure in a dry-goods store windy."

Rafferty, they'll give you the slather of ber me to"a kiss that 'ud wather a horse if joined dreeut to thim."

"Thrue for you, Madden. I was near that way," said Rafferty, reminiscently as 'he drew the back of his brawny fish." hand over his mouth.

The conversation languished for several minutes as Madden mixed two glasses of thot Irish. Then, as he drank and replaced the glass upon the bar, he resumed:

"But, tell me, Rafferly, who was the man that first invented this poly-

" 'Tis her-rd to tell that surely, Madden; but as far as my readin' goes 'twas a man by the name o' David."

"And y h :e did h li e?"

"I think 'I was in the land o' Canaan. wherever that might be. He was the son of a man named Jesse. Sure Dayy was a great man intirely for throwin' stones wid a sling. Faith, he was the the lad that killed Coliath wid a brick. I think Ewas Tasso or Lucullus or some of thim Dago potes that made him immortal in verse that'll go rollin' down the hallways o' time like a milk-wagon of a Sunda' mornin'. Mememory is not so good as 'twas, Madden, but I think the po'try begins

somethin' like: "The brightest boy ould Jesse had was Davey, youngest son,

He was a bold and active flad, well

liked by every wan. And then the soothin' way he had to

capture young and old, The female sex-don't say a word-

'twas them was his strong hold " "That's fine, Rafferty," exclaimed Madden "It sounds like the 'Har-rp that Wanst' don't it?'

"Of course it do," said Refferty complacently. "It shows what blarny he had whin he was young, but well till I tell you what a sootheres he was whin he grew up to be a man. By rayson of his stone-throwin' and his courage they made him " King and inthim days, Madden, a King could have annything he wanted. Well, by the same token, wan day he saw a fine, lump of a lass ridin' by his palace in a jauntin' car. What did he do but he made the jarney stop the donkey and called the lass in. Says the King to

"May I be so bowld, me hearty, as

to ax who you ar-re?" she lookin' around at the nagur serv- a visit of inspection. Down near the ants and the gould chairs, "I'm Brid- creek he found an old sow with a litter get Uriah, the sojer's wife, savin' your of plus and near her was lying the dead

presince, your worship.' "Is he a brave man? says the King. killed by the sow in fair fight. Perry "'He is that' says Bridget. "There's says that while he was looking at the ne'er a man in the Tipperary Fusileers strange sight the old sow said, can throw him, Collar-an'-elhow, "Woof!" whereupon he lit out for a Graco-Roman or Catch-as-catch-can.' | fence.

"The glad to hear that', says the King, "for I have a bit o' work for him to do. The Arsyrians are comin' down like the wolves after the pigs. Tell Uriah I want him to go and raise a company of the Fusileers to-morrow and drive thim back, and ask him will he march at the head o' the throops." So Uriah went out as he was ordered to do, and of course, Uriah was killed. as the King thought he would be, and the King put Bridget in a cage so no harum would come to her and that's the way the poly'game was star-rted." "That sounds all right and rayson-

able Rafferty, said Madden. But who brought the poly game to Ameri.

"An auld scamp named Brigham Young," was the reply, "He was a great auld tad all around and he lived in Salt Lake City out West. He claimed he was a prophet and that he could drame drames and tell furtures. He ws a great dale more nor Roberts, the man they are makin' all the fuss about for whin he died about thirty years ago, he left \$2,000,000, nineteen wives and fifty-six children. You see, 'tis ail' right about the wives. Madden, they can keep thrack o' themselves. But Told by One Who Pas Had Some Experi what are the poor elilder to do? I hope poor Roberts will niver be in the fix Brigham was." ration and envy of her friends, "been

"What was it like?" asked Madden. "Weil, you see, Brigham had so to a manicure in my life and yet, as manny childer that he could not keep a Frenchwoman once said to me, with track of thim. Twould take him two subline self-satisfaction. Tout le weeks to go round any say good day monde regarde mes mains. I have to them all. AS A CAMPAIGNER.

HOW "TO LOSE THEIR HEADS."

A Picture of the Hardy, Wily, Sharpshooting Farmer Soldiers of the Two Repub is the Prairie Fire.

armies. The farmer soldier of the two republies make or receive charges in silence, their minds intent upon aim and upon strategy. If it is a charge, they advance in a scattered and what seems like a rout because each man tries to save himself as quickly as possible. A rout is almost impossible because the farmers do not understand how to "lose their heads." They scatter, and when a place of safety has been reached come together again as if nothing had happened.

While they have no martial music in the ordinary sense, they have martial music of the most impressive kind in the extraordinary sense.

Each night before "turning in" and each morning before breakfast, and also before going into battle if there is opportunity, the entire army, with heads uncovered, joins in singing "Old Hundred." Each note is prolonged six beats and the effect is solemn and even awful, so much of resolution, of stern and relentless resolve do they put into the singing.

The two strongest points about this practically un-uniformed and strangely organized Boer army are both Individual — ability of the Boer at strategy and his individual ability as a sharpshooter.

The favorite topic of conversation among the Boers has always been how best to meet the British when they come to destroy the republics, how to fight the great defens ve war which every Boer has felt sure would inevitably come. The plans that are being carried out and will be carried out are the result of years upon years of study of the situation by the burghers of all ranks, consulting together upon the stoops of their thatched houses of evenings. The Boer is a natural strategist, wily lerafty, hard to corner, quick to seize the slightest advantage, quick to see advantage where even trained soldiers of other nations would fail to

It is a mistake to suppose that the Boers have deteriorated in marksmanship. The English have got that impression from a superficial observation of the Boers of the large towns. The villagers and farmers are as sure of shot as of old. With a smooth-bore gun a Boer shot Sir. George W. Colley through the head in the Majuba Hid fight at 1,100 yards. With one of the new guns Gen. Symons was shot in the Boer's new target-the stomach-at a far longer range. I have seen a girl bring down a bird on the wing at 400

If Sir Redvers Buller shows himself at 4,000 yards, his fate is hardly doubtful. For the Boers are now armed time at 4 500 yards.

these arms in large quantities ever the bonders of the boundless deep. since the Jameson raid and the practity yards it will shoot through fifty over the sea and was as much impressinches of pine."

At 4,000 yards it will pierce two inches of solid ash and three inches of pine. At a thousand yards the bullet, if it does not flatten, will bore a hole right through a bone without splitting. This rifle has a barrel thirty inches long and weighs eight pounds. Its great, but this was greater far. calibre is thirty. It is hair-triggered, has a pistol grip, and the Boer carries it slung over his shoulder by a strap.

In the last two years the countrymen have been putting away the old smooth-bore and providing themselves with the Mannlicher. In killing game they use a bullet of which the lead point is exposed so that it "mushrooms" when it strikes. On entering the bullet expands and tears an ugly hole. If it strikes sidewise the effect is horrible.

Gen. Joubert assured me that these bullets would not be used against the English—unless the latter employed

their barbarous dum-dum. If the British try to go up into the republics by way of Natal they must traverse the Drakensburk Mountains, the only great range in South Africa. The peaks of these mountains rise as high as 11,000 feet. The way through the range is a tortuous course along steep cliffs and above yawning precipices. Every few hundred yards there is an impregnable position. the evaporation of the lowlands condense there and gives plenty of water for a force intrenched high among the rocks. Forage, too, is plenty. A few men can hold out indefinitely and unless the British take heavy artillery with them—a well-nigh impossible feata few hundred men can almost destroy

a great army. Once the British gain the almost level and almost open "veld" over which the two republics spread, the Boers have left two physical allies-famine

and fire. Water in South Africa is often as precious as gold and sometimes infinitely more precious. Every year witnesses a terrible drought in some part. One may journey 100 miles on the "Karoo" and never find a drop of water. In Johannesburg the writer was glad to pay 24 cents for a quart. Nearly the whole city was drinking botgled and imported mineral waters at

reservoir, but even these give out, her up. It was too much for me. ers in the whole country and in the dry that.

season even they degenerate into shallow pools. These are called puns and serve to quench the thirst of wiid animals. The Transvaal and Free State THE BOERS DO NOT UNDERSTAND are high plateaus that the sun bakes to a crisp and where the water evaporates as it falls.

The Boers, however, being thoroughly acquainted with the country, have a knowledge of the formation of the rocks and plants and know where to lies One Great Physical Ally of the Boer | dig down a few feet and get water. | lu this way a commando can always secure enough water to make coffee-There are no bands in the Boer their only drink. With coffee, bi.tong and mealies the Boer can campaign

Coffee he drinks four times a day and so hot that if "thrown on a dog it will take off his hair." Biltong is a strip of meat, buffalo, ox, hartbeeste, to be a confused manner. In reality dried in the wind or sun. It seems to it is only the Boers' natural order, in have peculiar nourishing propert.es. which they fight best. A retreat looks | Mealies is like our Indian corn. The Boer starts off on a month's hunling trip with a knapsack full of these commodities and gets stronger every day. Tommy Atkins or any other European soldier cannot do it.

Before the English can reach Pretoria they must fight over a distance as great as that from New York to New Orleans. There will be no foruge, no water, and the Boers will harass them by day and by night.

The other great physical ally of the Boer is the prairie fire.

Nearly the whole South African plateau is covered with a long, slender grass which, under that herce sun, is often dry as tinder. Nothing can live in a veld fire, and in its passing it, leaves a desert. Under the cover 64 the smoke that arises the Boers can utilize that strategy for which they are iamous.

SEEING THE OCEAN.

Speciacle That Is Sought by People Born and Raised Imand.

Some people go to Concy Island for beer and frankfurters, some go there for general recreation and some tor sea bathing. Some go to view the ocean in its grandeur and among these last are sure to be people from the interior, who, it may be have never seen the ocean before, and who do not fail to come to its shores, when they get anywhere near to it, as for instance here in this city. One of the objects of the trip to a seaport is frequently a sght of the sea. Its fascination for the inland visitor, is sometimes shown m peculiar ways. A man who has lived all his life

within easy reach of Coney Island teach s, id he had known men who ad been there from the interior to grease their boots and then walk about in them in the sand on the beach, so that the sand would stick to them, to be carried inland thus, as visible proof of their walking on the seashore. Sometimes men fill a bottle with water from the ocean, to carry away with them. This might be with various purposes, and sometimes indeed this w ter might be carried away by men was had seen greater seas. In one case, for instance, a man who filled a bottle on Coney Island beach, from the waters of the Atlantic, was going to empty it into the Pacific, from whose shores he came. One man was going to empty the bottle that he had with the sporting Manulicher and they much into the giant river. Mississippl, can, with their knowledge of air cur- but doubtiess the greater number who rents, hit a small object almost every hill bottles thus, take them to keep, it may be at a home on some boundless President Kruger has been buying | prairie as a memento of their visit to

And it is not alone those who live cal failure of the British to punish the | far inland and away from any great raiders. Gen. Joulett took me into a stream or a great body of water that storehouse at Pretoria filled with thou- are thus impressed by the ocean. A sands of these rifles. "Isn't it a beau- man whose home was on the shores ty?" he said, picking up one of them of one of the Great Lakes, stood on the and patting it affectionately. "At twen- beach at Coney Island and looked out ed by it as anybody. From where he lived, he looked over broad waters, a velocity of 2,000 feet per second, and as far as the eye could reach there was no land in sight, but he knew it was there, and only fifty or a hundred miles, or whatever it was, more or less, away, while here on the sea, one could traverse thousands of miles, and still no land. The lake was

The man from the interior, who is inclined to dwell upon the wonders of nature, is mightily impressed by the ocean, but so, it might be said, is the man who lives upon its shores, when he stops to give it thought.

Thread From Earth to a Star.

Sir Robert Ball once made a curious calculation on the distance to the nearest of the "fixed stars." The calculation was inspired by a visit to one of the great Lancashire thread factories. The superintendent of the factories inspected by the astronomer informed the star-gazer that the combined output of the various Lancashire thread factories was 155,000,000 miles of thread per day. These figures were certainly enough to astonish any one unless it should be an astronomer.

Sir Robert Ball has long since passed the point where he expresses surprise at a string of figures which represent even billions of miles. Instead of falling stunned at the thread man's feet, he paralyzed the manufacturer of cotton filaments by telling him that if all the factories in Lancashire should work day and night producing 155 000,-000 miles of thread every twelve hours, it would take them two hundred years to spin a thread long enough to reach from the earth to the nearest of the fixed stars.

Mr. and Miss. Monkey.

"Yes, monkey shooting in Borneo s great sport," said Old Traveler, as he settled himself comfortably in the biggest chair in the hotel lobby. "Monkeys are such human-acting things! shall never forget a pair that I saw one day. They were in fine range, and I was just about to shoot, but decided to watch them a few moments before doing so. Well, it was amusing. There they were, walking along, side by side, like a pair of lovers. Finally, they came to a log, sat down and talked a while, and then decided to move on, Well, Mr. Monkey, who was the larger of the two, got up first. Then he turned to Miss Monkey, and you never Scarcity of water is the curse of that saw anything more gallant than the country. Every farmer maintains a way he extended his arms and helped There are only two or three large rive didn't have the heart to shoot after

WOOLSON SPICE CO., Toledo, Ohio.

LYNCHAND COUNCIL

They Discuss Street Railway Matters.

EXTENSION OF FRANCHISE

Canton-Massillon Company Wants a New Grant for Twenty-five Years, and Contingent on This are the Nament of Present Lines.

W. A. Lynch, of Canton, president of the Canton-Massillon electric railway one-fourth to Cincinnati. company, before the council, assembled in informal session, Tuesday evening, said that inasmuch as the contemplated improvement and extension of the lines Five Hundred flen are Idle in would be a great benefit to the city, he felt that it ought not to object to granting the company a new 25 year franchise. Bonds which the company would have to issue, he explained, cannot be made pay that of the bonds. The company's pres- tarded ent franchise is for twenty-five years. but it is now eight years old, and, therefore, according to Mr. Lynch, of little Prompt Action Taken to Prevent value for the purpose he spoke of.

The improvements which Mr. Lynch referred to are the broadening of the gauge of the company's twenty miles of gauge, must be made the standard width en to prevent the spread of the disease of four feet and eight and one-half inches. Nearly all other roads, particularly the newer ones, have the standard gauge, and one of the reasons given by Sanitary Waterway From Chicago to the Mr. Lynch for desiring a change in the company's lines was to make it possible to have traffic arrangements with other roads, which, he said, were sure to be built into Massillon within the next few years. Mr. Lynch spoke unsparingly of the mistakes that had been made in the construction of the lines and of the wretched service that was given at times, saying, however, that all errors would be corrected and the service made as perfect as possible if the new franchise were forthcoming. Rails now in use, he said, were a failure, having been bought at a time when the operating of electric lines was in its infancy. By welding the rails together at the joints, he stated, they could be made as good as any, and this the company proposes promise you," said he, is that the Navarre line will be built immediately and that our lines will be given the stan lard sauge. All I ask of you is a new franchise. By the insertion into the contract of a few words in plain English, you can make the extension of the franchise contingent upon the fulfillment of these promises."

Mr. Lynch, in reply to something the solicitor said, stated that he had not come to the council to attempt to checkmate any other company. "The more the merrier," he declared. "The more franchises you grant the better it will be for us. So we think at any rate. With our lines standard gauged, we feel that we will be able to make traffic arrangements with these roads. Even if we do not, however, we believe that the more people these roads bring to Massilion from roundabout towns, the greater will be the traffic on our interurban line. We do not fear competition; we invite 14. 17

There is a possibility, Mr. Lynch said, that at some time in the future his company would run a line to Louisville, and another to the north. These would be of standard gauge, and he wanted them to connect with lines now in operation. He stated that the more lines built into a city, the better it would be for the city, and he was of the opinion that it would be to the best interests of the town for the council to grant franchises to roads knocking for admission. Mr. Lynch stated that his company had long been considering the advisability of running a line to West Brookfield, and he thought it not unlikely that at some time in the future a branch might be built to Canal

Fulton. President Reay remarked that in a talk with him, Mr. Garver, one of the promoters of the Massillon-Barberton line, stated that they would not run over the lines now in operation as there would be to much difficulty about the cars. Mr. Lynch replied that he did not think the Massillon business would be so great as to cause the cars to obstruct each other. "Weil then," inquired Mr. Hazg, "how does it come that we are obstructed in East Main street? Why does the city car have to wait ten or fifteen minutes for the interurban and at all times give the Canton car the right of way? In Canton the city cars have the

right of way." Mr. Lynch's reply was that in Canton city traffic in the west end is very great. while in Massillon's east end it is practically insignificant. He said that the annoyance of being forced back by the interurban would be dore away with soon by the putting in of a passing switch at the brow of the hill.

Solicitor Young called attention to the suit of the city to recover the forfeited \$3,000 bend. "Oh," said Mr. Lynch, "I think that case had better be quietly dropped. We are going to build that Navarre road, and that's all you want. We'll pay the costs of the suit and will build the line. If we are forced to fight this case, it will be repudiating the promise made you a long time ago. We are now ready to keep our promise.

Newspaper AACHIVE®

if you'll only treat us with consider-

Mr. Lynch said he did not want the council to not hastily or secretly in the matter. He advised them to study the question, and to base their action upon the conclusions reached. If they looked into the matter thoroughly, he said, they would see that it was to the best interests of the city that franchises to | SENATOR CLARK'S CONTESTED SEAT other companies and the extension of his franchise be granted.

GREAT CANAL OPENED.

Desplaines River Started at Chicago End.

CHICAGO, Jan. 3.—The \$33,000,000 canal, at present used for sewage disposal, but which ultimately may be a ship canal also, is in use, after about seven years of hard work by the trustees of the sanitary district, which is the name of a corporation including the larger part of the city of Chicago and many of its suburbs.

Probably never before has the completion of a public work of such magnitude been marked with such absolute lack of ceremony. There were no speeches, no exercises and no cheering. The sanitary district trustees and engineer gathered at the scene. Besides a few workmen there were not a dozen spectators present. There was no to do if all goes well. "What I positively grand rush of water to be followed by the cheers of spectators. The water

was let in gradually. Today about noon the water is expected to reach Lockport, and about four days from the time the flow began, according to the estimate of the chief engineer, the canal will be full and the water will begin to run over the sills of the controlling gates at Lockport, 28 miles from Chicago. There it will fall into the Des Plaines river, and then into the Illinois and Mississippi rivers, and so finally Lake Michigan will shake

hands with the Gulf of Mexico. Chicago people are already eagerly watching the effect on the Chicago river - nected with the case says that, judging of the opening of the canal. This from the number who have thus far stream, which is so objectionable in its present condition, is expected to be comparatively pure and certainly to lose all its features objectionable from a samtary point of view when the present stagnation gives way to a full, strong

current from Lake Michigan. Woman Burned to Death.

Probable Action of Investigating Committee.

Hundreda of Witnesses Summoned From the Mountain State-Contest Will Be Expensive-Congressman Hepburn's Discovery.

WASHINGTON. Jan. ? - [Special.] -Representative Robert W. Taylor gets more mail on the Roberts case than any other man in Washington-more, even, than Mr. Roberts himself. As the Ohio congressman took the initial advantage to allow grain at least once tive in the matter on the first day of the session and was appointed chairman of the committee to investigate the matter, his name naturally became prominently connected with the now famous case, and people all over the United States have been flooding him with letters of advice and suggestion. Some of these letters, if made public, would be really interesting Times have changed wonderfully. The reading, but most of them are of a successful swine grower now markets character of very little interest ei- them under a year old-many of them ther to Mr. Tayler or to the people at at eight and ten months. large. Of course these letters can be of no possible use to the committee at the present time, as its desire is simply pay more for her feed and care than to obtain information relative to the allegations that Mr. Roberts is a polygamist, that being the only question at issue. Mr. Taylor says that there has been a slight decrease in the number of letters he has received in the past few days, but yet the great bulk of his mail consists of these letters, coming

from all parts of the country. While no intimation has yet been made as to what will be the decision of the committee, it seems to be the general impression among those who have been in close touch with the Utah situation that the report will be against Mr. Roberts and will sustain the action of the house in refusing to allow him to be sworn in as a member. Mr. Roberts seems determined to stand upon also the relation of the soil to heat. his constitutional rights and to assert that the house and the committee of investigation have no right to inquire into his acts previous to the time he became a member of the house. This position has already been overruled by the committee, and this ruling seems to foreshadow what the report will be.

From the Mountain State. All Montana seems desirous of coming to Washington to take part in the Clark contest. Senators Chandler and Pettus, the subcommittee to make ar- which have a greater proportion of rangements for the hearing, have received several hundred requests from persons in Montana saying that they feed, is all that can be devised in feedcan give testimony bearing on the case either for or against Senator Clark, they will waste more than they eat, as This subcommittee sifts the names of we think will most other farm animals vitnesses to be subpornaed very care fully, as the expense of each witness to the government will be very near \$350, the mileage alone amounting to \$325. It is already estimated that the contest will cost in the neighborhood of \$75,000. In deciding who shad or a poor catch of grass, unless there shall not be subported Senators Chandler and Pettus consult with the attorneys on either side and ascertain whether the witnesses can testify to material points, and, if they cannot, they are rejected. One of the men conasked to be subporned, nearly everybody of any prominence in Montana was concerned in that election or else there are a great many who are by the side of the plum. In fact, seeking a free trip to Washington.

Mr. Hepburn's Skylight. Representative Hepburn of Iowa is chairman of the committee on interstate and foreign commerce and by virtue of his position has control of the committee room. He has had some difthe room just to his satisfaction, owing to the desire of certain employees to have their own way and lack of desire on the part of these same employees to do any more work than they are obliged to do. The other day Mr. Hepburn thought he would like to have the skylight in the room cleaned. He made some one sent to do it. Two young men "better dressed than I am," said Mr. Hepburn, appeared to learn what it was the Iowa man wanted. They were told that the skylight was to be cleaned. One of them gazed at it for a moment and said, "Well, by George, I didn't come down here to clean skylights!"

"Neither did I." responded the other. "What did you come here for?" asked Mr. Hepburn,

"To have a good time." answered one, and the other nodded. "And draw your salaries?" said Mr.

Hepburn, with some irritation. "Sure," said the pertest of the two, and they disappeared.

Had a Pull.

The Iowa member was considerably aroused by this time and decided to institute an investigation. He sought the proper officer and suggested that members of the house ought not to be subjected to such inconveniences and that the young men employed to work about the house ought to do what they are told.

"Well, if they won't, I can't make them," said the official. "Why don't you discharge them?"

asked Mr. Hepburn. "They are appointed on the recommendation of Representatives --- and -," said the official, "and they can't be disturbed."

member selects men for minor positions they are secure in these places. ARTHUR W. DUNN.

Stack the straw well, so it will keen. It is a good food and what is not fed. ean be used for bedding and other pur-

In selling any kind of farm products they should be graded into uniform They will sell more readily and for better prices. Reputation is valuable. The man

who is known to keep only good stock can always find customers for his surplus, and at good prices. Buyers prefer to know what they are buying.

Lambs will fatten faster than the older sheep, but it takes a careful, skillful feeder, who gives his best thought to what he is doing, to fatten sheep successfully. For steep hills the merino sheep is

better adapted than the larger breeds.

as they are more active. It will be an

the selection of breeding stock, says a

swine breeder. Fifty years ago barrows were not marketed till two or three years old.

One dairyman has reached the conclusion that no self-respecting cow will it is worth. Her milk is her capital, and if you get it you must pay for it, and you get what you pay for and no more.

If the steers that are on the pasture are to be sold, take them to the barnand feed them liberally with ground corn for a week or ten days before selling. If they are not fat feed them longer. Every pound weight added will increase the quality and the price.

The relation of the soil to water is one that can be very greatly modified by drainage, manure and tillage. Indeed, in general, on facus of ordinary fertility, the real practical value of all three of these operations is in their effect upon the physical condition of the soil, by which the relation of tho so.l to water is effected, and thereby

When milk is converted into butter and cheese, it takes about ten quarts of milk to make about one pound of butter, the average price of which is twenty-two cents per pound; fourteen quarts of milk to three pounds of cheese, average price, nine and threefourths cents per pound, thus netting in each case about two cents a quart! for milk.

The hog is not a ruminant animal, and its smaller stomach requires more rich food than does the cow or sheep, naunch. A little silage, simply to prevent the cloying effects of rich grain ing swine. If much is given them except the cow.

August is an excellent month for seeding to timothy or some other grasses, but the land should be thoroughly prepared. Sowing grass seed on the surface with no preparation is a waste of seed, and often results in comes a heavy rain to soften the ground and cover the seed. It is a saving of time to brush the seed in, and thus insure a covering.

Fruit is being largely increased in size and quality. It has been but a few years since the Wilson strawberry was the principal market variety. At the present day it is difficult to select from the large list the best for market. The size has also been so large ly increas of as to place the strawberry there are one or two varieties which are even larger than the largest variety of plums, on an average.

Raising Buhach. The well-known "Persian insect powder" is prepared from the flowers ficulty in getting matters arranged in of the buhach or Pyrethrum conerar'oefolium, which is now largely raised in California. Near Merced are nring acres of the plant, and a local paper describes the gathering which has recently taken place. The plant and its blossoms look much like marguerites. When in full bloom the flowers are gathered, mainly by Chin-The rows are four feet apart, application to the proper officer to have and the men pass down with large shears, and, cut the blossom, with stems about eighteen inches long, letting them fall on the ground. Other men come with trays on which are mounted steel combs. The bunches of flowers are taken from the ground and pulled through the steel combs, the blossoms falling into the trays. When full they are loaded on a wagon and taken to the drying house, and after drying are ground into powder, which is packed into lin cans holding from one to ten pounds.

Building Silos.

Fifty cubic fet of envlage is the average amount for a ton, and we calculate capacity of silos on that basis. A 10x10 foot sile is about the right size for fifteen or twenty head of eattle. I had four silos fifteen feet square, and wintered forty to fifty head of cattle. The studding for silos and for partitions should be as wide as the timber of the barn, and if eighteen to twenty-four feet, they should be close together, not over one foot from centre to centre. There is great lateral pressure to ensilage.-Cor. Exchange,

Encourage Farming. There is some disposition to laugh

at men who go into agriculture late in life. This is all wrong, as it is a tribute to the attractions of the occupation. It may be that they do not go to work in a practical manner, but most of them have some good ideas. Mr. Hepburn explains that the men Often these men have money enough were so solidly intrenched because of to include in fancy farming, and then the method now prevailing of parcel- by bringing in improved stock, etc., ing out the patronage of the house, they prove themselves a valuable adso much to each member, that when the dition to the community. Do not discourage any man who wants to try farming, but give him all the aid you can. There is room enough for all who come, in some branch of the industry.
